KRISTEN PAIRITZ

WEB & UX/UI DESIGNER

WORK EXPERIENCE

WEB CONTENT ANALYST

Jan 2017 - Present

Department of Defense - Indianapolis, IN

- Collaborated with key stakeholders to redesign Agency's Indianapolis web portal community for 5k+ users.
- Designed, developed, and managed contents of 30+ intranet webpages via SharePoint using HTML, CSS, and Bootstrap.
- Met with content owners, discussed design requirements, drafted wireframes/ mockups, & performed card sorting to develop webpages.
- Collaborated closely with key stakeholders to identify numerous UX/UI improvements of 4 workflows used by 5k+ internal customers.

MANAGEMENT SUPPORT SPECIALIST Oct 2014 – Jan 2017

- Developed and conducted usability tests for 5 external processes; identified and proposed recommendations for enhancing system functionality and user experience.
- Collaborated with team and developers to define sys. requirements for new workflow; performed iterative testing; identified visual/ systematic issues & proposed solutions that were accepted.
- Proposed and led development of automated tracking database and script for W2 corrections; designed a clean system interface for endusers resulting in successful deployment and use of tool.
- Identified work process inefficiency for calculating YTD balances; collaborated with developer to create a macro resolving the issue.

FINANCIAL SYSTEMS SPECIALIST

Aug 2010 - Oct 2014

- Redesigned and maintained two intranet sites for 350+ users.
- Led visual design of DTS pay.gov website, ensuring a friendly user experience and clear user interface for customers paying debts online.
- Redesigned and automated invoice-tracking system, improving data consistency and tracking.
